EVERCOAT®

OPTEX

GREEN MEANS

Applies Pink & Dries Green When Ready to Sand

Evercoat® OPTEX® Fillers

#100356

Lite Weight® OPTEX® Filler

LITE WEIGHT® OPTEX® is a smooth spreading, high quality, clog free, lite weight body filler formulated with patented OPTEX Color-Changing Technology. There's no second guessing; once mixed with cream hardener, Lite Weight OPTEX changes from pink to green indicating the repair is ready to sand.

#100382

Z-Grip® OPTEX® Filler

Z-GRIP® OPTEX® is an advanced clog-free, lightweight body filler with patented OPTEX Color-Changing Technology. There's no second guessing; once mixed with cream hardener, OPTEX changes from pink to green indicating the repair is ready to sand. Formulated for superior adhesion to galvanized steel, bare steel, and aluminum. Z-Grip OPTEX is a part of the METALWORKS® System that guarantee that the repair will maintain the O.E.M. corrosion warranty on original factory corrosion protected sheet metal and galvanized sheet metal when used in accordance with the application instructions.

#100135

Rage® OPTEX® Premium Filler

Rage OPTEX® with color-changing technology is an ultra-premium body filler that helps body shops save time and money on every repair. There's no second guessing—once mixed with cream hardener, OPTEX changes color to indicate that the repair is ready to sand. Formulated with Evercoat's patented EcoResin™ technology, Rage OPTEX offers superior adhesion to a broad range of substrates and unparalleled sanding properties. Rage OPTEX is also part of the Metalworks® system that guarantees the repair to maintain the O.E.M. corrosion warranty on original factory corrosion protected sheet metal and galvanized sheet metal when used in accordance with the application instructions.

#1001390

Light Speed™ OPTEX® Premium Filler

Light Speed™ OPTEX® Premium Body Filler is the world's best sanding dual cure filler offering unparalleled sanding qualities as a result of the Evercoat patented EcoResin™ technology. As an important product in the Light Speed system, the body filler can be cured on demand in 3 minutes with the Light Speed LED lamp. The filler also features patented OPTEX color-change technology, in which the body filler optically transitions from pink to a light gray-green when it's ready to sand.

#100193

Commercial OPTEX® Premium Filler

Commercial OPTEX® is an ultra-premium body filler with extended working time that helps commercial, industrial and collision technicians work on larger repair areas. Commercial OPTEX Spreads easy and virtually eliminates micro-pinholes as a result of our patented EcoResin™ technology. The filler also features patented OPTEX color-change technology, in which the body filler optically transitions from pink to a light gray-green when it's ready to sand.

Evercoat® OPTEX® Primer & Putty

#100740
OPTEX® Super Build 4:1
Polyester Primer Surfacer

OPTEX® Super Build 4:1 primer highlights dents, low spots, scratches, and other surface imperfections while at the same time eliminating the need for messy carbon black powdered guide coats. This 4:1 primer features patented OPTEX color-change technology, in which the primer optically transitions from pink to a gray, revealing high spots while low spots and scratches remain pink.

#100454
Metal Glaze® OPTEX®
Premium Putty

Metal Glaze® OPTEX™ is a premium putty formulated for use as a finishing coat over body filler, large panels, or small spot filling. Metal Glaze OPTEX features patented OPTEX color-change technology in which the putty changes color from purple to light green, letting the body shop technician know the repair is properly catalyzed and ready to sand. Metal Glaze OPTEX is also part of the Metalworks® system that guarantees the repair to maintain the O.E.M. corrosion warranty on original factory corrosion protected sheet metal and galvanized sheet metal when used in accordance with the application instructions.
